

Your Dollars at Work

Healing from physical burn injuries has its unique challenges, yet healing from the emotional trauma can be overwhelming. True recovery requires care and compassion for the body, mind, and spirit.

That's why we work with burn survivors and their loved ones, firefighters, and medical teams across the country to care for the whole person after a burn injury. When you engage with the Phoenix Society, whether as a volunteer, donor, or corporate partner, you can trust that your investment will be used with care. Each of our programs and services is designed for the greatest impact and continuously evaluated to ensure the Phoenix Society mission is being met.

Investment Through Mission Focus
